

The Coral wave while contrasting is good. Can we brighten the colour it is suppose to be C:0 M:61 Y:88 K:0 (pantone 172C) The Turquoise above it should be Pantone 327C or C:100 M:0 Y:41 K:2

There is a crane and a street light at the back here can these be removed?

Can we dull or remove the council sign

Any way we can sharpen the star lines up?

Can we tone down the rust so it looks more like the rest of the pillars also the lights above

There seem to be a blur here do we know what that is – hopefully not a ghost

Around the underneath of the canopy can we ensure consistent red lighting there is a couple of gaps

Can we remove the watering can?

- To be 7.7metres wide (backlit)
- Already completed**
- Street lights removed
- Roading signage removed
- Light removed (building left)
- City buildings (lights dimmed)
- White taxi toned back
- Shop highlights toned back
- Canopy - fixed patchy red lighting
- Numberplates - unreadable
- Concrete cleaned
- Shop signage brightened
- exposure blend for shadow detail
- Contrast and colour enhance
- Cropped to suit print dimensions

Final Changes
